THIS OFFICE ACTION IS IN RESPONSE TO APPLICANT'S AMENDMENT FILED 9/21/2010.

Status of Claims

- Claim 15 is canceled.
- Claims 9-11, 14, 16-33, and 36-37 were amended.
- Claims 1-8, 12-13, and 34-35 are withdrawn.
- Claims 1-14 and 16-37 are pending.

This application is in condition for allowance except for the following formal matters:

Specification

[1] The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed (i.e., since there are no applicable method claims, the title should reflect this).

Election/Restrictions

[2] Claims 9 and 30 generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 12-13 and 34-35 are no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim. However, claims 1-8, remain withdrawn (and should be consequently canceled by the applicant) from consideration since they are directed to a different invention (method claims).

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is

withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Thus, in view of above, the applicant should at least amend the claims to the following:

In the Claims:

Cancel claims 1-8.

In claim 12, "Fastener" should be "The hollow fastener"

In claim 13, "Fastener" should be "The hollow fastener"

In claim 34, "Component" should be "The component"

In claim 35, "Fastener element" should be "The component assembly"

Reasons for Allowance

[3] The following is an examiner's statement of reasons for allowance. This application has been reviewed by the examiner and meets all formal and substantive (i.e., statutory) requirements and the language of the claims is enabled by, and finds adequate descriptive supported in the application disclosure as originally filed.

The primary reason for the allowance of the claims is the presence of limitations in the independent claims, which are not found in the prior art references. The examiner believes that the record of the prosecution as a whole makes clear his reasons for allowing a claim or claims. However, the examiner would like to point out one or more specific reasons and/or limitations that the prior art fails to disclose and/or make obvious. Hence, the prior art fails to disclose of the tubular guide section, ring gape between the guide section and the rivet section, the guide section

projecting beyond the free end of the rivet section; as well as the tubular rivet section capable of being pushed outward when an die member is used.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee, and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
